VOICE CLIENT

Voxter[®] Elite +
New Generation of the
Proven Mobile Voice Device

Optimised
for use with
Lydia[®] 8

Lydia[®]
VOICE

Benefit from the Advantages of Voice-operated Processes.

Voxter® Elite + is the perfect partner for all voice-operated processes in logistics, production and maintenance. Thanks to its powerful features, the Voxter® Elite + supports the latest speech recognition technology based on neural networks. This ensures fast and reliable speech recognition even under extreme noise and temperature conditions.

The Voxter® Elite + is compact, lightweight and comfortable to wear. It is the first mobile voice computer to be compatible with all commercially available Bluetooth headsets. Alternatively it can also be used with our unique Lydia® VoiceWear® vest®.

The Voxter® Elite + is intuitively operated via voice control without the user having to use his hands. This is a decisive advantage, especially when working with gloves or in a deep freeze environment.

100 %

New Standards for the Mobile Data Entry by Voice

Speech recognition of the latest generation

The Voxter® Elite + uses the latest speech recognition technology based on neural networks. This particularly benefits employees with a dialect or an accented pronunciation.

Operation of the Voxter® Elite + is user-independent. Thus, a single Voxter® can be used by any number of employees and is available for 24/7 operation.

Extremely robust and powerful

The Voxter® convinces right down to the last detail with high-performance and extremely durable components, that meet the high demands of everyday operation. The Voxter® Elite + meets the criteria of protection class IP67, so that dust, dirt, moisture, frost and heat can not harm it.

Intuitive Voice operability

The Voxter® Elite + is especially optimised for mobile voice data entry. Thus, the device is exclusively operated via spoken service commands.

For communication, the Voxter® Elite + supports both wired and Bluetooth-enabled headsets. Alternatively, it can be used with the Lydiä® VoiceWear®.

Smaller than the rest

Submersible in shallow waters

Tougher than the big ones

More efficient than ever

Shock-resistant even without an airbag

Freeze-resistant even at arctic temperatures

Product Profile

Voxter® Elite +

Dimensions / Weight:

approx. 4.4" x 2.6" x 2" / 112 mm x 68 mm x 51 mm
approx. 10 oz / 280g incl. belt clip and battery

WLAN:

IEEE 802.11a/b/g/n

Bluetooth:

V2.1 + EDR

Wireless security:

Safety standard WPA, WPA PSK, WPA2, WPA2 PSK, TKIP, AES, IEEE 802.1x authentication, TLS, PEAP

System software:

Windows Embedded Compact 7 (EC7)

Processor:

i.MX6 ARM Cortex A9 (Dual-Core, 2 x 1.000 MHz)

Memory:

1024 MB RAM
1 GB Flash, 4 GB Micro SD-Card

Operating temperature:

-22°F to +113°F / -30°C to +50°C

Battery:

Quick-change battery 5,200 mAh Li-Ion

Operating time:

Up to 14 hours, 24/7

Protection class:

IP67

Illuminated display:

3 two-colored LEDs for status indication

Audio:

Optimised for mobile voice data entry,
9-pole plug connector with
push+pull lock and quick disconnect
